PVC

Alltone synthetic shutters are as smooth and beautiful as they are durable. With a near indestructible core Alltone synthetic PVC shutters are capable of taking whatever your busy lifestyle can dish up.

Alltone synthetic shutters are advanced synthetic shutters engineered specifically to cope with moisture, heat and UV rays without peeling, denting or chipping. In short, Alltone synthetic PVC shutters are the perfect all-round lifestyle choice.

Presenting a sleek, high quality appearance available in *five fashion colours, Alltone synthetic insulating qualities for regulating noise, cold and heat are excellent. There are also significant longevity and environmental benefits of quality synthetic material.

Synthetic PVC shutters are ideal for kitchens, bathrooms, the laundry and other wet areas where narrower panels are suitable.

Ideal for all areas, especially wet areas such as Bathrooms, Laundry and Kitchen.

Sliding, Bi-fold, Hinged, Bi-Hinged or Fixed

Smooth, Beautiful and Durable

Premium stands out as the best for its attractive appearance with the post painted 2 pack polyurethane finish. Not only does this paint type offer a more attractive lustre with its 40% gloss and thick coating. The paint is distinct because of it's increased ability to protect the shutters, look fantastic for many years to come, and it's remarkable resistance to damage and chipping.

TIMBER

Alltone timber shutters are manufactured using quality imported shutters, which are crafted from genuine timber mouldings. They are stable, dense, much lighter than man-made materials and inherently smooth.

Alltone timber shutters are laminated and kiln dried to precisely control moisture levels. Alltone timber shutters are tested for the extremes of humidity, temperature and accelerated ageing to deliver a quality shutter which is strong, durable and extremely stable. They are available in three blade sizes, *five standard colours and eight stunning stained and lacquered tones.

You have the option to choose your styling of a centre tilt rod, offset tilt rod or a clearview aluminium control bar. These may be located on either the face or hidden on the reverse side of the panel.

Basswood

Sliding, Bi-fold, Hinged, Bi-Hinged or Fixed

Stable and Durable Timber

Alltone Basswood shutters are both versatile, durable and light weight. Basswood comes with options of either stained or painted finishes to complement any decor. Basswood is a hardwood timber that offers stability and insulation due to it's detailed preparation and finish.

Class & Function

At Alltone, we have successfully blended the values of traditional craftsmanship and quality with both modern style and specialist service.

We see our shutters as a quality piece of furniture that can enhance the space and design of any room.

Our external shutters can create additional living spaces and offer protection from the weather and elements as well as creating privacy.

Alltones website offers a glimpse into our beautiful shutters as well as who we are as a quality manufacturer.
